

YERMAN J. MEREL G.

Field Service & Industrial Systems | Equipment Maintenance & Technical Support

Panamanian Nationality • (+507) 6295-9441 • ymerel_02@outlook.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Mechanical Engineer with experience in industrial environments, mechanical systems, and technical support for equipment and operations. Skilled in preventive maintenance, troubleshooting, equipment monitoring, and field service support. Strong background in mechanical systems, industrial equipment, and engineering coordination, with the ability to diagnose technical issues, improve system performance, and support operational reliability in dynamic field environments.

CORE COMPETENCIES

Technical Skills: Field Service Support • Industrial Equipment Maintenance • Mechanical Systems • Pumps and Piping Systems • Pumps and Piping Systems • Troubleshooting and Diagnostics • Technical Inspections

Engineering Skills: Problem Solving • Technical Documentation • Customer Support • Equipment Performance Monitoring • Equipment Performance Monitoring

Technical inspections: MS Excel • Microsoft Office • Microsoft Office

PROFESSIONAL EXPERIENCE

Project Engineer | Herrenknecht Tunnelling Services Panama Corp.

Panamá City, Panamá • Jan 2025 – Jul 2025

- ▶ Supported monitoring and evaluation of mechanical and industrial equipment across 2 international tunnelling projects, contributing to improved operational performance tracking and reducing potential failure risks by 15%.
- ▶ Conducted technical inspections and operational analysis of mechanical systems, supporting early identification of equipment issues and improving system reliability by 20%.
- ▶ Conducted technical inspections and operational analysis of mechanical systems, supporting early identification of equipment issues and improving system reliability by 20%.
- ▶ Coordinated engineering documentation and maintenance support activities for multidisciplinary teams of 5+ engineers, improving operational workflow efficiency by 18%.

Key projects: Hudson River Tunnel Project (USA) • Railway Tunnel Project (Perú)

Field Engineer – TBM & Surface Facilities (Intern) | China Railway Tunnel Group Co., Ltd.

Panamá City, Panamá • Aug 2024 – Jan 2025

- ▶ Supported field monitoring of tunnelling and industrial mechanical equipment in active operations, contributing to operational continuity and equipment availability above 95%.
- ▶ Supported field monitoring of tunnelling and industrial mechanical equipment in active operations, contributing to operational continuity and equipment availability above 95%.
- ▶ Prepared weekly technical reports on equipment performance and field operations, improving operational visibility and coordination with engineering teams.
- ▶ Supported Supported mechanical system monitoring and troubleshooting in field environments, enhancing equipment performance and operational reliability by 20%.

Key project: Panama Metro Line 3 – Tunnel Section

EDUCATION

B.Sc. in Mechanical Engineering • Technological University of Panama

Panamá City, Panamá • Jan 2018 – Aug 2024

Relevant coursework: Mechanical Systems, Thermodynamics, Fluid Mechanics, Heat Transfer, Industrial Systems

CERTIFICATIONS & TRAINING

- Engineering training in hydraulic systems and industrial equipment monitoring – HK AG (Germany, Jun 2025)
- Design of Thermofluidic Systems – Technological University of Panama (Aug 2023)

CERTIFICATIONS & TRAINING

Field & Operational Readiness

- Willing to work in industrial field environments
- Comfortable working in dynamic operational conditions
- Ability to travel and support field operations
- Strong safety awareness
- Valid driver license

LANGUAGES

Spanish (Native) • **English** (C1 – Full Professional Proficiency) • **German** (A2 – actively developing)
