

YERMAN J. MEREL G.

Mechanical Engineer | Condition Monitoring & Engineering Support | Industrial Equipment

Panamanian Nationality • (+507) 6295-9441 • ymerel_02@outlook.com • [LinkedIn](#) • Driver's License

PROFESSIONAL SUMMARY

Mechanical Engineer with international experience in industrial and infrastructure engineering projects, including Panama Metro Line 3 and Hudson River Tunnel Project (USA). I specialize in mechanical systems, equipment monitoring, technical inspections, operational data analysis, and engineering support in industrial environments. Experience supporting equipment condition monitoring, technical diagnostics, system inspections, and performance evaluation of mechanical and industrial systems, contributing to operational reliability and maintenance planning. Strong background in technical reporting, engineering documentation, SAP-based processes, and cross-functional coordination, with a focus on reliability, predictive maintenance support, and industrial equipment performance monitoring.

CORE COMPETENCIES

Condition Monitoring & Reliability Support: Equipment monitoring • Mechanical systems inspection • Technical diagnostics • Industrial equipment monitoring

Engineering & Technical Analysis: Operational data analysis • Technical reporting • Engineering documentation • Equipment performance monitoring • Technical inspections

Technical inspections: SAP • MS Excel • Cross-functional coordination • AutoCAD

PROFESSIONAL EXPERIENCE

Project Engineer | Herrenknecht Tunnelling Services Panama Corp.

Panamá City, Panamá • Jan 2025 – Jul 2025

- ▶ Supported monitoring and evaluation of mechanical and industrial equipment performance across international engineering projects.
- ▶ Conducted technical inspections and operational analysis of mechanical systems to identify potential issues and support reliability.
- ▶ Prepared technical and operational reports based on equipment performance and system condition data.
- ▶ Coordinated engineering documentation and operational processes to support maintenance and system monitoring activities.

Key projects: Hudson River Tunnel Project (USA) • Railway Tunnel Project (Perú)

Field Engineer – TBM & Surface Facilities (Intern) | [China Railway Tunnel Group Co., Ltd.](#)

Panamá City, Panamá • Aug 2024 – Jan 2025

- ▶ Supported monitoring of tunnelling equipment and mechanical systems during active operations.
- ▶ Assisted in technical inspections and system verification under engineering standards.
- ▶ Prepared operational and technical reports related to equipment performance and field operations.
- ▶ Supported engineering teams in identifying potential technical issues and improving operational reliability.

Key project: Panama Metro Line 3 – Tunnel Section

EDUCATION

B.Sc. in Mechanical Engineering • [Technological University of Panama](#)

Panamá City, Panamá • Jan 2018 – Aug 2024

Relevant coursework: Mechanical Systems, Mechanical Systems, Fluid Mechanics, Numerical Methods

CERTIFICATIONS & TRAINING

- Engineering training in hydraulic systems and industrial equipment monitoring – HK AG (Germany, Jun 2025)
- Design of Thermofluidic Systems – Technological University of Panama (Aug 2023)

LANGUAGES

Spanish (Native) • **English** (C1 – Full Professional Proficiency) • **German** (A2 – actively developing)
