

YERMAN J. MEREL G.

Mechanical Engineer | Production Engineering & Project Coordination | Industrial Systems

Panamanian Nationality • (+507) 6295-9441 • yermanmerel@gmail.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Mechanical Engineer with experience in industrial operations, production environments, and international tunnelling projects. Skilled in project coordination, equipment performance monitoring, and cross-functional engineering collaboration. Strong background in mechanical systems, industrial equipment, and field operations, supporting maintenance activities, technical evaluations, and operational efficiency improvements.

Experienced in working within multidisciplinary teams across complex industrial projects, contributing to equipment reliability, technical reporting, and project execution. Exposure to continuous improvement practices and industrial process optimization. Highly adaptable, hands-on, and capable of performing in demanding operational environments.

CORE COMPETENCIES

Production & Industrial Engineering: Industrial Equipment & Mechanical Systems • Production Support & Operations Coordination • Equipment Performance Monitoring • Maintenance Support & Reliability

Engineering & Project Coordination: Cross-functional Team Coordination • Engineering Documentation & Reporting • Operational Performance Tracking • Technical Communication

Technical Tools: Microsoft Excel (Data Analysis & Reporting) • Microsoft Office Suite • Technical Reporting & Documentation • SAP Systems (PM&MM)

PROFESSIONAL EXPERIENCE

Project Engineer | **Herrenknecht Tunnelling Services Panama Corp.**

Panamá City, Panamá • Jan 2025 – Jul 2025

- ▶ Supported coordination and monitoring of mechanical and industrial equipment across 2 international tunnelling projects, contributing to improved operational efficiency and reduction of potential failure risks by 15%.
- ▶ Conducted technical inspections and performance analysis of industrial equipment and mechanical systems, improving system reliability by 20%.
- ▶ Coordinated engineering documentation and communication between multidisciplinary teams (5+ engineers), enhancing workflow efficiency by 18%. Supported maintenance-related activities and equipment evaluations to ensure operational continuity in complex industrial environments.

Key projects: Hudson River Tunnel Project (USA) • Railway Tunnel Project (Perú)

Field Engineer – TBM & Surface Facilities (Intern) | **China Railway Tunnel Group Co., Ltd.**

Panamá City, Panamá • Aug 2024 – Jan 2025

- ▶ Supported field monitoring and operational performance of industrial mechanical equipment in active tunnelling operations, maintaining equipment availability above 95%.
- ▶ Assisted in technical inspections and troubleshooting of mechanical systems and industrial equipment in field conditions.
- ▶ Prepared weekly engineering reports on equipment performance and operational status to support coordination between engineering and operations teams.
- ▶ Supported continuous monitoring of industrial systems, contributing to improved reliability and operational performance (20% improvement).

Key project: Panama Metro Line 3 – Tunnel Section

EDUCATION

B.Sc. in Mechanical Engineering • Technological University of Panama

Panamá City, Panamá • Jan 2018 – Aug 2024

Relevant coursework: Mechanical Systems, Thermodynamics, Materials Engineering, Heat Transfer, Industrial Systems • Engineering Materials

CERTIFICATIONS & TRAINING

- Engineering training in hydraulic systems and industrial equipment monitoring – HK AG (Germany, Jun 2025)
- Design of Thermofluidic Systems – Technological University of Panama (Aug 2023)

LANGUAGES

Spanish (Native) • **English** (C1 – Full Professional Proficiency) • **German** (A2 – actively developing)

FIELD & OPERATIONAL READINESS

- Valid Driver License
- Available for relocation to Germany; previously lived and worked in Germany for one year.
- Willing to work in industrial production environments
- Strong adaptability to cross-cultural teams
