

YERMAN J. MEREL G.

Industrial Infrastructure & Maintenance Engineering | Field Operations & Asset Reliability

Panamanian Nationality • (+507) 6295-9441 • ymerel_02@outlook.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Mechanical Engineer with experience in industrial infrastructure, mechanical systems, and field engineering operations in tunnelling and large-scale industrial projects. Skilled in maintenance planning, technical inspections, equipment monitoring, and multidisciplinary engineering coordination across international projects. Strong background in industrial facilities, piping systems, mechanical equipment, and operational reliability, with experience supporting technical documentation, engineering evaluations, and maintenance activities to ensure safe and efficient infrastructure operations. Able to work in dynamic environments and contribute to asset integrity, inspection processes, and industrial project execution.

CORE COMPETENCIES

Industrial & Infrastructure Engineering: Industrial Infrastructure Maintenance • Mechanical Systems & Equipment • Pumps, Piping & Industrial Facilities • Technical Inspections & Field Engineering • Equipment Monitoring & Troubleshooting • Asset Reliability & Operational Support

Engineering & Project Coordination: Technical Documentation & Reporting • Engineering Coordination • Maintenance Planning Support • Multidisciplinary Team Collaboration • Operational Performance Monitoring

Technical Tools: MS Excel • Microsoft Office • Technical Reporting & Data Analysis

PROFESSIONAL EXPERIENCE

Project Engineer | Herrenknecht Tunnelling Services Panama Corp.

Panamá City, Panamá • Jan 2025 – Jul 2025

- ▶ Supported monitoring and evaluation of mechanical and industrial infrastructure systems across 2 international tunnelling projects, improving operational performance tracking and reducing potential equipment failure risks by 15%.
- ▶ Conducted technical inspections and operational analysis of mechanical equipment and industrial systems, contributing to a 20% improvement in system reliability and early fault detection.
- ▶ Coordinated engineering documentation, maintenance activities, and technical communication for multidisciplinary teams of 5+ engineers, improving operational workflow efficiency by 18%.
- ▶ Supported maintenance planning and engineering evaluation of industrial equipment and field infrastructure to ensure operational continuity and safety compliance.

Key projects: Hudson River Tunnel Project (USA) • Railway Tunnel Project (Perú)

Field Engineer – TBM & Surface Facilities (Intern) | China Railway Tunnel Group Co., Ltd.

Panamá City, Panamá • Aug 2024 – Jan 2025

- ▶ Supported field monitoring of tunnelling and industrial mechanical infrastructure in active operations, maintaining equipment availability above 95%.
- ▶ Assisted in technical inspections and performance monitoring of industrial equipment and mechanical systems in field environments.
- ▶ Prepared weekly engineering reports on equipment performance, operational conditions, and infrastructure status to support maintenance and engineering decisions.
- ▶ Supported troubleshooting and operational monitoring of mechanical and industrial systems, improving equipment reliability by 20%.

Key project: Panama Metro Line 3 – Tunnel Section

EDUCATION

B.Sc. in Mechanical Engineering • Technological University of Panama

Panamá City, Panamá • Jan 2018 – Aug 2024

Relevant coursework: Mechanical Systems, Thermodynamics, Materials Engineering, Heat Transfer, Industrial Systems

CERTIFICATIONS & TRAINING

- Engineering training in hydraulic systems and industrial equipment monitoring – HK AG (Germany, Jun 2025)
- Design of Thermofluidic Systems – Technological University of Panama (Aug 2023)

FIELD & OPERATIONAL READINESS

- Valid Driver License
- Strong Safety Awareness
- Ability to Work in Industrial and Field Environments
- Available for Site Inspections and Infrastructure Operations

LANGUAGES

Spanish (Native) • **English** (C1 – Full Professional Proficiency) • **German** (A2 – actively developing)
